

LINGUISTIC PROGRAMS

CLASSIQUE (ENRICHED FRENCH COURSE)

(lessons in French)
+
2 Serbian lessons
+
2 English lessons

It is meant for all students regardless of their mother tongue.
The English curriculum is more important than the one taught in France.

This course is already more ambitious than the one in traditional schools in France.

Language courses are often the subject of a medium or long-term project of the family.
They engage families to support and expose their kids to the French language.

PARLE (ADAPTED COURSE, REINFORCED FOREIGN LANGUAGES)

(lessons in French)
+
2 Serbian lessons
+
2 English lessons
+
3 lessons in English
(arts, science, history,
geography, sport)

It is meant students who are already at ease with French or for English-speaking students who wish to rely upon English as a support language.

The curriculum is the same as the one taught to the other students in the Classique course.
The evaluations are also the same.

This course requires additional staff, so it is slightly more expensive than the classic one.

An English evaluation can be carried out beforehand for primary school students in order to make sure their level corresponds to the minimum level required.

**In case you have any doubts, teachers know their students well. Feel free to ask them for opinion!
At any time during your child's education, you can request a change in the language curriculum.**
